ABSTRACT

An inventory of academic degree programs in South Carolina is presented to aid institutional and statewide planners and others who want to determine institutions offering a specific program. A first section lists 42 academic programs and indicates the schools offering each program. A second section listing public and private colleges identifies the degree programs offered by each. The programs are arranged according to a standard classification: the National Center for Education Statistics (NCES) Classification of Instructional Programs. The NCES taxonomy codes for each program are included, along with the type of degree/certificate awarded. The institutions in the guide are also listed by type: public senior colleges and universities, four-year campuses of the University of South Carolina, private senior colleges and universities, two-year campuses of the University of South Carolina, private two-year colleges, and technical colleges. AN INVENTORY OF ACADEMIC DEGREE PROGRAMS IN SOUTH CAROLINA

Introduction

This inventory of academic degree programs has been compiled by the South Carolina Commission on Higher Education primarily as an aid to institutional and to statewide planning for postsecondary education. The information presented will also be of value to those who wish to know at which institutions a given program is offered within the State. The inventory is based on information furnished to the Commission by each institution and is current as of the fall academic term, 1984.

The inventory is divided into two parts. In Part I are programs listed by category. In Part II are listed public and private non-profit institutions and the degree programs offered by each.

Within the inventory, abbreviations used to categorize the level or levels of each program are defined as follows:

Abbreviation

C . . . Diplomas or Certificates

A . . . Associate degrees (such as Associate in Arts, Associate in Science, Associate in Business)

B . . . Baccalaureate degrees (such as Bachelor of Arts or Bachelor of Science)

M . . . Masters degrees (such as Master of Science or Master of Education)

S . . . Education Specialist Degrees or Advanced Certificates in Education

D . . . Doctoral degrees (such as Doctor of Philosophy or Doctor of Education; also includes some first professional degrees such as Doctor of Medicine or Doctor of Law)

For convenience, programs are arranged according to a standard classification (A Classification of Instructional Programs, National Center for Education Statistics, February, 1981). All institutions offering one or more programs identified with a given subfield are listed immediately following the entry for that subfield in Part I. State-supported institutions are included in the first group under each subfield, followed by private, or independent, colleges in the second group under each subfield.

In most cases, the title of the program in the inventory is that preferred by the institution. In a few cases, where programs similar in nature and objectives are offered with different preferred titles, these have been grouped for ease of identification.
